Jay -- Does Thursday the 17th at 2 in Seattle still work for you?

Thanks - Bill.

Jay -- By the time you can respond to this, you'll have solved the Chehalis flooding problem so will surely  
in the right mood to think about the EPA, right?!?!?!?

As I mentioned on the horn, Dennis and I would love to get together with you talk about what we're up to  
on the non-enforcement side related to nutrient management and innovative, sustainable  
solutions...we're pretty excited about where we're going on this, and think it'd be really good to put our  
heads together on what we might be able to do to keep the momentum going on these positive  
approaches.

So, do you think you'll be in Seattle in the relatively near future? We'd like to spend an hour talking  
through what we're up to.

Please let me know a few dates and times that might work, and we'll make it happen.

Many thanks - Bill.
